

Gary Kunkel, Agricultural Commissioner
Sealer of Weights and Measures
William R. Appleby, Assistant
Commissioner/Sealer

As authorized by Food and Agricultural Code Section 14006.6 (a), each permit issued by the Commissioner is conditioned with the following conditions for Carfentrazone and/or Glyphosate.

- **NEW!** A 48-hour Notice of Intent (NOI) shall be submitted prior to application.
- A recommendation made by a licensed Pest Control Advisor shall be submitted along with the NOI and list all susceptible crops (almonds, grapes, stone fruits and vegetables) within one mile of the application site or in the case that there are no susceptible crops within one mile, state that there are “no susceptible crops within one mile of the application site”.
- Applications must take place from one hour after sunrise to one hour prior to sunset. The sunset and sunrise times are as published in the local newspaper.
- No application shall take place during a temperature inversion.
- No application shall take place when wind speeds are less than 3mph or greater than 10mph.
- No aerial application shall take place if treated site is within ½ mile of susceptible crops (almonds, grapes, stone fruits and vegetables).

Each restricted materials permit issued by the commissioner is conditioned with the following:

◆ No aerial applications of Restricted Use Pesticides shall be applied within 1/4 mile of the following:

- ▶ A school in session or due to be in session within 24 hours
- ▶ An occupied farm labor camp
- ▶ A residential area as defined by the Tulare County Agricultural Commissioner/Sealer

- ❖ A 48-hour Notice of Intent is required.

❖ Applications of PennCap-M, Sevin and Furadan shall not be made within one mile of pollinating bees, except when there are no blooming plants (including weeds and cover crops) in the treatment area.
